### A Meal Fit for a Squirrel

Sasha is intently watching a squirrel in her backyard. He scurries from place to place. What is he doing? Suddenly, he stops stone still and stands on his hind legs. His eyes dart from side to side. His tail swishes, and his nose twitches. He begins to dig with his front paws. In a flash, he comes up with an acorn. It's dinner time for the hungry squirrel.

1. What is Sasha watching in her backyard?

- a cat
- a bird

- a squirrel
